

IrisX TRACKING

INTEGRATION

Seamless solutions to fit your organization best

IRISXpress

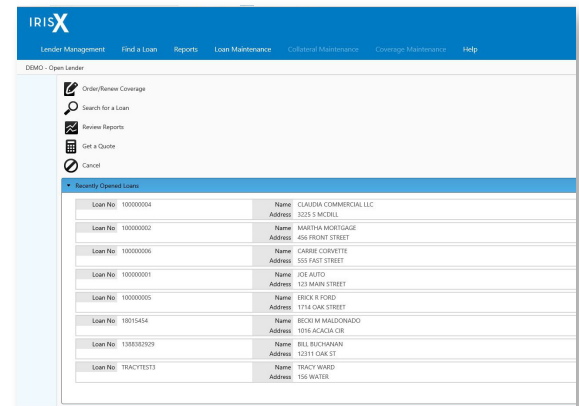

On-demand, cloud-based lender-placed insurance technology for insurance coverages. Accessible from any computer or mobile device, IrisXpress is a feature-rich and user-friendly system to help you deliver coverage quickly and accurately with simple set up.

IRISXcel

A comprehensive, multi-collateral tracking, reporting, and insurance technology system. IrisXcel empowers your team to deliver accurate and compliant coverage across diverse loan types and manage the risks efficiently as part of an à la carte outsourcing program.

IRISXclusive

For those looking for tailored risk-management strategies and integrated, cloud-based technology solutions, IrisXclusive encompasses a holistic and robust approach to organizational compliance and insurance needs. With full call-center support and an integrated platform approach, the OSC team becomes the hub of daily activities for insurance activities. This can include on-site client support as well as full electronic document and mail room management services.

Formula for successful starting & switching
